

Spring Ventures is an independent private equity firm investing in UK companies with high growth potential

Spring Ventures is built around partners and an advisory board with a track record of supporting management teams to accelerate the growth of their businesses.

Businesses we back

Spring Ventures supports ambitious management teams and businesses helping them to fulfil their potential. We invest in the following types of transaction:

Investment: Typically we invest £5-10m

Deal type: Buy-outs and growth capital

Characteristics: UK businesses with strong management teams and potential to grow through roll out, sector consolidation, strategic redirection or international expansion

What makes us different

Building relationships with successful management teams is at the core of everything we do. We combine industry knowledge and real world experience with our straightforward approach to give every one of our investments the best chance to succeed.

Because we're a small team backed by successful entrepreneurs we can move quickly and decisively and we go the extra mile to support our portfolio management teams.

The value we add

At Spring Ventures we seek to differentiate ourselves with the diversity and depth of experience we bring to our investments. Our advisory board comprises a range of entrepreneurs and seasoned industry professionals who help us evaluate new investments quickly and support portfolio businesses with access to their networks.
