

Healthcare

Healthcare accounts for 18% of government spending. Fiscal constraints are putting additional strain on departmental budgets and we expect outsourcing, the use of technology and legislative change to present opportunities for investment.

The main characteristics we look for include:

- Demonstrable service or cost advantages
- Clinical excellence
- Visibility and stability of income
- Scalability

Portfolio comment

"From our very first meeting the team at Spring Ventures were a pleasure to deal with. They rolled their sleeves up to support us during the deal process and proved they could be relied on to deliver."

Thelma Turner, CEO Creative Care

Spring Ventures people

John Hudson

John leads deals in the healthcare sector and previously transacted Creative Care and Amida Spa.

Advisory board member: Lindsay Dibden

Lindsay spent 23 years in private equity as a partner at HgCapital, where he established and led its pan-European Healthcare team. He now owns and manages domiciliary care provider Home Help UK.

Investment Focus

- Healthcare services
- Medical device manufacturers and suppliers
- Life sciences software

Investments

Creative Care provides residential care for young adults with Autism.

Amida Spa operated a number of health clubs and spas.
